Dear sisters and brothers,

I write to you with the love and courage of Jesus Christ, our Lord and Saviour, because He is our strength, our hope and our solid rock.

So much has been happening recently as COVID-19 is declared a pandemic and governments are advising that we take the necessary precautions to avoid the spread of the virus. There is so much we have had to come to terms with in such a short time.

In times like these, I encourage you to take heart and do not fear because the Lord, your God is by your side - an ever present help in times of trouble. In Joshua 1:9 we read, 'I hereby command you: be strong and courageous; do not be frightened or dismayed, for the Lord your God is with you wherever you go. Amen.'

As members, you are bold and brave, full of courage and compassion, and so very loving and just like Esther you stand daily on the frontline calling for an end to injustices and advocating for all that supports stable families and communities.

You have been busy in these acts of love but now many of you are being called to be quiet and to self-isolate in an effort to prevent the spread of the virus. You will discover there is still so much we can do as members because as a movement we are ideally placed to support and act in this time, but only within the health advice given by your respective governments.

Families Worldwide is an excellent resource to guide your prayers for members across the globe and the stories in the zonal updates can open a good conversation. I can assure you that using this publication will give you the feeling of love and togetherness.

Lord Jesus Christ,
You said to your disciples,
I am with you always, even to the end of time.
Be with me today, Lord, as I offer myself to you.
Hear my prayers for others and for myself,
And keep me in your tender loving care always. Amen.

Yours in love and prayer,

Sheran Harper

Following MULO, Mothers' Union members in Myanmar, Sri Lanka and Korea are now listening well to their communities to see what the real needs are. Mothers' Union is showing the community that it really cares about them. MULO has shown them that they already have the resources they need within themselves and their communities to overcome their challenges.

Encouraging younger women to join MU in Sri Lanka is challenging. One of the reasons is the time factor because the young women are busy with their careers and children's schooling which can be very demanding. Life has become a sort of a race for them and it is stressful. In Myanmar the main challenge members face is the political situation in the country. The members are unable to reach out to some communities because they have to get government clearance to reach those areas and at times they do not succeed in obtaining permission.

Personally, as the Trustee for Zone A, my biggest challenge is to bring North India into the Mothers' Union worldwide family. South India Women's Fellowship is slowly responding to me and I praise God for it.

At Worldwide Council in 2019 we agreed upon a number of priority areas for our

zone and decided that all our work should be centred on the following:

- 1.** Education for children – in our countries there are many children who drop out of school due to the lack of finances for educational needs. When we support such children in their education it eases the burden in their family and also gives the children moral support. With a good education they will have better access to jobs.
- 2.** Livelihood for women - in a lot of cases within rural villages the men are the sole breadwinners and the women are dominated by them. Sometimes the needs of the children are not addressed by the father. However if the women are trained in a skill and were to earn an income they will always give priority to fulfill the needs of their families.
- 3.** Gender-based violence survivors - there are many survivors who suffer in silence because of the social stigma and also due to the lack of shelters and support for them.
- 4.** Climate change – we want to educate our own members on how to minimise the use of plastics and the value of planting trees, and to be a good example for the younger generation in caring for creation.

Stories of change

The Mothers' Union parenting programme in Myanmar is working well. A community of people of other faiths joined the programme and some of the parents are also in the micro savings group which is being supervised by Mothers' Union.

Through the parenting programme the mothers have learnt to be more patient and caring towards their children. This in turn has resulted in a change within the

children who are now more confident, and they perform better in school. The mothers said that even their relationship with their husbands have improved due to the parenting programme.

Through the micro savings group the mothers have been able to achieve many things. One mother had managed to build her house and now runs a catering business at home and was very thankful to this programme.

MULOA has had a significant impact in Zone B. It has energised our Mothers' Union members and encouraged them to become outward looking in service to their communities.

The joint meetings of the members from the different provinces in our zone has had a positive impact. They feel connected to one another, and are much more aware of what is going on in each other's countries. It has given them a more global outlook and has encouraged them to connect and support one another.

In South America, the majority of members of AMARE, in the Diocese of Northern Argentina, are from indigenous communities. Despite poverty and some conflict they are very faithful and resourceful. There is growth in membership in the urban areas too. AMARE has a new constitution which

promotes good governance and guidance.

There are two parenting trainers, Mechi Tarragona serving the Dioceses of Argentina and Uruguay, and Flavia Vergara serving Northern Argentina.

Stories of change

In the Diocese of Jamaica and the Cayman Islands, two young women called Mary and Jane* were involved in the Parenting Programme. As an off-shoot, the facilitator introduced them to the skill training session where they were encouraged to think about what items they could produce themselves to sell at local markets. One began to crochet clothing items and the other made jewellery. Both have been successful.

They have since sought and obtained advice on how to register with the Jamaica Business Development Corporation (JBDC) and now have business cards. Both women will be seeking assistance to promote their products through "Things Jamaican", a chain of six retail outlets whose purpose is to promote craft development in Jamaica, and to showcase and retail the best and highest quality gift and craft items on the island.

We've discovered there's some misunderstanding of how the countries, provinces and dioceses in this zone are linked together so thought I'd use this space to explain!

The Anglican Province of Aotearoa, New Zealand and Polynesia, is the full title of the Province of New Zealand. It is made up of three streams and each had its own archbishop; Aotearoa is the Maori stream; New Zealand the European stream and Polynesia is for the Polynesians who live in Fiji, Tonga, Samoa, the Cook Islands as

well as the Polynesians that have migrated to New Zealand. At present there are no Mothers' Union members that I know of in the Cook Islands. Fiji, Tonga, Samoa and Cook Islands are all separate nations in their own right.

The Anglican Province of Melanesia has members in three separate countries: Solomon Islands, Vanuatu and New Caledonia and one archbishop. Australia and Papua New Guinea (PNG) are not as complicated - two countries, two provinces!

Stories of change

Laura, one of the MULOA participants from PNG came up to me and said, 'This has been wonderful and I have learnt a lot, but I don't know if I am really able to go out and facilitate a MULOA workshop.'

Her local parish was asked if some of the members could assist with a dinner for one of the firms in the community. Laura could see how this fitted in with what she had heard at MULOA. Under Laura's supervision the group made tablecloths, set up the hall, did the floral arrangements and served the meal. 'It was wonderful. We wore our MU uniforms and we were asked by several people what MU was all about.'

When Laura arrived at her second MULOA she was bursting to tell her story. Her whole demeanour had changed. 'I learnt that I could do it, speak out in the community about Mothers' Union, and I feel confident that I can go out and run the workshops.'

Her husband heard about the dinner and his and Laura's relationship has become so much better. Laura has since completed her term of office at MU and during the handover of positions – a big event in PNG – Laura's husband told her successor's husband to support his wife because it would make for a better marriage and he would learn to be proud of her.

MULOA has had a big impact in our zone. Mindsets have been changed and members have learnt to listen to one another, understanding people's challenges and then act wisely and positively. Communities have been helped as a whole

rather than just individuals. Mothers' Union is reaching out to children and youths through schools, giving talks on hygiene and relationships. They are also counselling parents in the community, especially on issues such as early child marriage.

Ugandan MU coordinators holding the 2020 Make a Mother's Day seeded cards

Stories of change

In Awor, Uganda, some of the Mothers' Union members were living in grass-thatched houses. These would usually set fire in the dry seasons, burning all of their food and belongings and leaving the members feeling physically and spiritually downhearted. Also, because the fires were occurring at a time when members' could sell their crafted products for a higher price, they were only getting income in the low season and therefore not making as

much money as they could because the products would burn in the fires.

A decision was made amongst the members to form home-based fellowship groups and pool money rotationally to benefit one member at a time. So far, three iron-roofed houses have been built out of the money from the rotational funds. They also decided to help each other tend to their gardens in order to boost their yield and this has empowered members with new skills.

Members delivering groceries

Listening has played a crucial role and had a major impact amongst members in our zone since the inception of MULOA. Members have learned to listen carefully to others and act according to what they have heard. Mothers' Union is now able to mobilise relevant government structures as well as NGOs to intervene and help the communities in need. Communities are also encouraged to use their skills as well as their available resources to sustain themselves.

Top of the agenda for our zone is starting to work with Green Anglicans to combat climate change and prevent/prepare for

natural disasters. Monitoring, Evaluation & Learning (MEL) is new to our zone and another high priority for us. In the past we haven't accurately been able to collect the statistics of lives transformed by our initiatives so this is something we are going to improve on.

Stories of change

At a Mothers' Union conference in the Province of Eastern Cape, South Africa, the disability division at the Department of Education presented a heart-breaking story about an eight-year-old girl, Sibabalwe Mene, who was born physically challenged with her leg not fully developed.

MU pledged to help by raising funds for a prosthetic leg for Sibabalwe to make her life easier and give her more confidence. They are also engaging with the local municipality, as well as Human Settlements MEC, to provide her family with proper shelter. A parish in Fort Beaufort donate groceries to the family on a monthly basis.

After Sibabalwe received her prosthetic leg, it brought back a smile to her face and hope for change and a brighter future. She is now able to play with other children her age.

Members in Zone F are more engaged since MULO and are energised in their relationships with God and each other. Many individuals and families are in loving and flourishing relationships and communities are starting to work together to bring about change. Some groups of people who have been excluded in their communities are becoming more self-reliant with the help of Mothers' Union projects and programmes.

Members have been able to interact with each other at sharing days across all levels - branch, diocesan and provincial. They are now

meeting regularly, at least once a month.

The biggest challenge in our zone is social injustice and so tackling this is our priority for 2020.

Vetiver – a fast growing grass which preserves the soil during the rainy season

Stories of change

Every year, Madagascar is affected by cyclones that wreak havoc in the communities they hit, including flooding and devastation to homes, land and livestock. On the other hand, due to environmental changes, other parts of the country are suffering from repeated drought, with agriculture and livelihoods greatly affected and households struggling to survive.

Mothers' Union Community Development Coordinators and Diocesan Development Coordinators were trained in building community resilience techniques in July 2018. They are now implementing further training in their dioceses.

In the Diocese of Mahajanga, communities experience both drought and flooding. The diocese is addressing the issue of environmental preservation. They have chosen a special grass called Vetiver, which is fast growing and preserves the soil during the rainy season. After the Vetiver is uprooted, trees are planted in the same place – specifically trees that fertilise the soil and which store water in their trunks. These trees will also provide great barriers at cyclone time.

This is just one example of how Mothers' Union is working with communities to prepare them for disasters, while at the same time continuing to help families transform their own lives.

Part of a Metamorphosis taster day

MULOA has encouraged the members to reengage with their faith and with Mothers' Union. It is empowering some to lead sessions and is helping them to see a wider role than just organising a branch meeting with a speaker. In some places, it has also had a positive impact on relationships between churches and MU because we are engaging with church membership in a way that both can be involved in personal growth and faith-based growth.

There are significant local initiatives which are life-changing, in that direct liaison enables those we help to feel loved and valued, or equally importantly, helps financially or with a difficulty which needs

to be overcome. The main projects we are focusing on this year are modern day slavery and Metamorphosis – our UK approach to church and community mobilisation.

Our biggest priorities in 2020 are to develop members to take on leadership roles (empowering and enthusing them) and we want Mothers' Union to get better known across society, and demonstrate that our initiatives are of high value, especially to those who would like to be involved.

Stories of change

In the Diocese of Canterbury members became aware of a girl starting secondary school without the correct uniform. This had the effect of her not being able, or wanting to attend school. She was also a carer for a family member, which in itself set her apart from her peers. She felt different and undervalued so members were able to provide the funds to help purchase her uniform (in partnership with Action for Children).

This had an impact on her whole family and she felt a sense of "being normal" in the respect of her uniform. Members were able to boost her self-esteem showing that even small acts can have a profound impact on learning and peer successes.

Giving hope to prisoners in the Diocese of Durham

MULOA has had a really positive effect on rejuvenating the members in this zone and has enabled the continuance and even reopening of some branches in the Province of York. However, our biggest challenge continues to be a decreasing membership and we only have a small number of “active” members in the zone.

Mothers' Union is making the greatest impact in its communities by working in

collaboration with other organisations to provide resources for various needs. Close relationships are developing between the Church and communities.

Leadership development is one of our biggest priorities for 2020 as it is fundamental to the future of the movement at all levels. Improving our communication is also key and we are making the membership more aware of Mothers' Union as a whole organisation and where members in Zone H fit in.

Stories of change

Female prisoners in Durham were lacking direction and hope for the future. The local Mothers' Union were approached by the prison warden and members volunteered to set up an MU branch. It received backing by the prison chaplain and 15 members now meet on a monthly basis.

Knowing that there are individuals who will show unconditional love and concern to these prisoners has given them a sense of hope for their future lives. The branch has made a tremendous difference to the outlook of all those involved. The initiative has gained major recognition, culminating in MU being invited to participate in a meeting at the House of Lords during Prisons Week in October 2020.

All-Ireland

Trustee: June Butler

Mothers' Union members: 7,000

Population: 6.7 million

Main languages: English, Irish

Members throughout All-Ireland meet frequently in branches and at diocesan and All-Ireland events to share their ideas and experience, learn from others - especially through the MULO process - and thus develop ways of working more effectively in their communities.

In Ireland Mothers' Union is helping the needy (individuals and families), the elderly, prisoners and their families and all types of vulnerable people. Probably our greatest impact in recent years has been in raising awareness of gender-based violence especially through annual

services and events to support the 16 Days of Activism campaigns, our work alongside Women's Aid and providing necessities for women and children in refuge centres.

In September 2020 the Mothers' Union Annual Gathering (the new name for the General Meeting) will be at the ICC Belfast.

Stories of change

The Widow's Friendship Group was founded in 2001 in the Diocese of Derry and Raphoe by a member who ran monthly meetings in her home. Early in 2016, she was approaching her 90th birthday and was beginning to find this challenging. As Cathedral House had been recently refurbished it was felt that this would be an appropriate alternative meeting place. However, this required transport and assistance with refreshments.

Members in Templemore Branch were invited to help with both and a rota formed. Maisie, the founder of the group commented, 'I started the group to help a recently widowed friend to cope with her loneliness and I wanted it to carry on

supporting those who are lonely. Moving to Cathedral House was ideal and the MU have been fully supportive in providing transport and refreshments'.

MU members are still giving generously of their time and effort and the group have been able to have outings to flower festivals, afternoon tea, Christmas lunch and special church services. 'The fellowship and courage provided by the group have been a great inspiration in a difficult time,' said one of the group members, Margaret.

It has had a very positive impact. Mothers' Union's name has been getting out and people now know who we are and what we do.

Scotland

Trustee: Paul Hindle

Mothers' Union in our zone is making the greatest impact through Away From It All (AFIA) holidays, prison work and various types of support to patients in hospitals. Members were providing toiletries for released prisoners, but discovered they were having to use paper towels, so set about collecting

towels to meet this pressing need.

Two dioceses have been involved in the MULOA process so far and we are rolling it out further in 2020 within the rest of the zone so that members can become more aware of the effect they can have in their communities.

Stories of change

In 2019 the Diocese of Glasgow & Galloway collaborated with Women's Aid and the Field Study Centre in Millport providing a successful 48-hour trip to Great Cumbrae. Seven single-mum

families affected by domestic violence were enabled to experience a safe and peaceful environment, practise outdoor skills and have fun with new friends, leaving them all feeling stronger with a positive outlook for their future.

ZONE K

Wales

Trustee: Jenny Barton

Mothers' Union members: 5,665 **Population:** 3.2 million

Main languages: English, Welsh

MULOA is starting to be recognised and members are beginning to look at what they have been doing for a long time, in a new way. The impact is starting to be felt in most areas, however in one diocese it has enabled branches threatened with closure to remain open and one which needed to close was able to keep its members by transferring them to diocesan or indoor members.

Each diocese in the Province of Wales has projects involving their local community which are having a profound impact on people in hospital or prison, and the homeless.

One of the biggest challenges in our zone is a lack of transport for members and I see the biggest priority as leadership training – this would be beneficial at all levels.

Joined-up prayer

Join Mothers' Union members worldwide as we support families and projects around the globe in prayer.

Prayer is central to our work as Mothers' Union and each day, at midday, members all over the world pause to pray. The Wave of Prayer is a continuous expression of our commitment in prayer to each other, which runs throughout the year and encompasses all the places in which we are represented.

You can use these daily prayers to join this 24/7 Wave of Prayer around the globe, praying for the dioceses in turn. The calendar is divided into three-day sections when we pray for a group of dioceses. On one day of the week there is a Bible verse which you can reflect on and take the opportunity to pray for aspects of the work of Mothers' Union worldwide to which you are drawn at the time.

As we play our part in sustaining the Wave of Prayer, we can do so with confidence, knowing our prayers have meaning and power. We can be encouraged, too, by knowing that throughout the world there are others who, in the same way, are praying for us. And now that *Families Worldwide* is translated into French, South American Spanish and Kiswahili it's even easier for us to pray for each other.

**We always thank
God for all of you
and continually
mention you in
our prayers.**

The Mary Sumner Prayer

All this day, O Lord,
let me touch as many lives
as possible for thee;
and every life I touch,
do thou by thy spirit quicken,
whether through
the word I speak,
the prayer I breathe,
or the life I live.

Amen.
